Posting Date: Jun 23, 2009

Posting Number: ANR-1723

Tenure System, 9-month basis, 100% time.

DUTIES: WOODY BIOMASS SUPPLY-CHAIN ENGINEER: The successful applicant will be expected to build a nationally recognized scholarly research program in woody biomass supply-chain engineering, including harvesting and processing, as demonstrated by research grants, publications in leading refereed journals, and graduate student recruitment and training at both the M.S. and Ph.D. levels. Initial teaching duties will include a course in woody biomass harvesting that is a required course in the Society of American Foresters accredited curriculum in the Department of Forestry.

QUALIFICATIONS: Ph.D. in forest or biosystems engineering or related discipline. Qualifications other than degree: Post-doctoral experience, a demonstrated record of success in soliciting research grants, teaching experience, and publications in leading refereed journals are desirable.

APPLICATIONS: Due July 31, 2009. Reposting. Position to begin August, 2009. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Curriculum vitae, a statement of plan for research, teaching philosophy, transcripts, and three letters of reference to: Dr. Larry Leefer, Search Committee Chairperson, Biomass Supply-Chain Engineering Faculty Position, Department of Forestry, 109 Natural Resources Building, Michigan State University, East Lansing, MI 48824

COMPUTER SCIENCE EGR/ELEC COMP ENGR – AST/ASC/FULL PROFESSOR

Posting Date: May 21, 2009

Posting Number: EGR-335

Tenure System, 9-month basis, 100% time.

DUTIES: Faculty Positions. Computer Engineering. Michigan State University in Dubai. A faculty member in the field of Computer Engineering is sought for the Michigan State University in Dubai program located in Dubai International Academic City, Dubai, United Arab Emirates. The Computer Engineering program at the Dubai instructional site is an undergraduate B.S. degree program which prepares graduates so that they satisfy identical requirements with, and receive degrees from Michigan State University. Candidates are expected to have earned a doctoral degree, have a strong commitment to teaching excellence and a strong research capability. One position is expected to be available starting in the 2009-2010 academic year and it is expected to be a tenure track position homed at MSU in East Lansing, MI with assigned duties in Dubai. The position will be at an appropriate academic level. The new faculty member will be expected to participate in MSU Dubai service efforts, to be active in the profession, and to supervise and mentor students. Previous experience indicating academic leadership is also desirable. The MSU-Dubai instructional site began offering classes in Fall 2008 with multiple undergraduate and graduate degrees. The Computer Engineering program is jointly offered by the Computer Science and Engineering Department and the Electrical and Computer Engineering Department. Applicants with expertise in all areas of Computer Engineering are sought including programming, architecture, and organization applicable to digital computers, data structures, principles of software design, embedded computer system design, network and communication systems, signal processing, circuits and systems, and elements of theory of computation. Applicants with expertise to teach undergraduate courses in multiple computer engineering areas are especially sought. MSU in Dubai is a non-profit higher education institution established to promote world-class research, teaching and scholarship. MSU in Dubai promotes progressive and competitive higher education programs to support regional students and Dubai's internationally distinguished knowledge economy. MSU in Dubai scholars will teach, conduct research, and extend their knowledge and expertise to local, national, and regional constituencies and communities. Michigan State University is pro-active in exploring opportunities for the employment of spouses, both inside and outside the University. For more information please visit the web site at <http://www.egr.msu.edu/>

QUALIFICATIONS: Ph.D. in Elec. Engr., Comp. Engr. or Comp. Sci. Qualifications other than degree: None

APPLICATIONS: Due June 15, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applications should be submitted to: MSU-Dubai Computer Engineering Search Committee Chairperson, Electrical and Computer Engineering, 2120 Eng.

Bldg., Michigan State University, East Lansing Michigan 48824-1226. Applicants should submit a full resume, a cover letter, and the names and contact information of three references.

JAMES MADISON DEAN - AST PROFESSOR

Posting Date: May 21, 2009

Posting Number: JMC-126

Tenure System, 9-month basis, 100% time.

DUTIES: The successful candidate will contribute to the major's sophomore sequence and teach seminars as well as elective courses, including one or both of the following courses: Comparative Race and Ethnic Relations and Women and Power in Comparative Perspective. She/he will also contribute to the first-year program. We are particularly interested in candidates whose research addresses one or more of the following areas: gender politics, human rights, labor and economic development, and migration and diaspora. For more information about James Madison College, please visit our website at www.jmc.msu.edu

QUALIFICATIONS: Ph.D. in Anthropology or related field. Qualifications other than degree: The College is particularly interested in candidates with expertise in Asia [especially South Asia and Central Asia -Turkey], or Latin America, although it will consider those whose work focuses on other areas.

APPLICATIONS: Due October 1, 2009. Reposting. Position to begin August, 2010. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applicants should supply a statement addressing how their research and teaching interests would contribute to the Comparative Cultures and Politics major, as well as a curriculum vitae, academic transcript, sample of scholarship (e.g., dissertation chapter, article, conference paper), and three confidential letters of recommendation that speak to teaching expertise and scholarly promise. All materials should be sent to Comparative Cultures and Politics Search, James Madison College, Michigan State University, East Lansing, MI 48825-1205.

OST MED DEAN - PATENGE PROFESSOR

Posting Date: April 23, 2009

Posting Number: COM-862

Tenure System, 12-month basis, 100% time.

Salary: \$120,000 to 180,000. Salary and rank commensurate with qualifications, degree and experience.

DUTIES: Cancer Biologist -- Endowed Professorship at Michigan State University. Michigan State University, in East Lansing, Michigan, invites applications and nominations to fill an endowed, tenured, faculty position in one or more of the following departments: Biochemistry & Molecular Biology, Microbiology & Molecular Genetics, Pharmacology & Toxicology, or Physiology. MSU has research strengths in a wide array of basic and clinical sciences that promote a highly collegial and interdisciplinary environment with many collaborative opportunities. MSU has established state of the art research support facilities in such areas as genomics, proteomics, and microscopy. The Patenge Professor will have access to graduate students in his/her department(s) as well as graduate students in two interdepartmental programs: Cell & Molecular Biology, and Genetics. The Patenge search is part of a coordinated, well-funded initiative to enhance research on human disease at MSU. The Patenge Professor will receive: sizeable laboratory space, a substantial setup package, the annual interest from the endowment to further the candidate's research, and an annual salary from the university commensurate with the rank of endowed professor.

QUALIFICATIONS: Doctorate or other terminal degree. The Patenge Professor will possess a research and/or medical degree (e.g., Ph.D., Sc.D., D.O., M.D.). Candidates must have a background that demonstrates his/her ability to work synergistically with both scientific and medical colleagues. The candidate will provide energetic leadership and creative direction in building a world-class cancer research program. Must have experience in Biochemistry & Molecular Biology, Microbiology & Molecular Genetics, Pharmacology & Toxicology, or Physiology. The Walter F. Patenge Health Sciences Professorship is a laboratory-based research-oriented position that will be filled by an established cancer biologist with a superior record of peer-reviewed publications and an outstanding record of funded research in the area of human cancer.

APPLICATIONS: Due July 1, 2009. Reposting. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applicants who are not U.S. citizens or permanent residents must provide documentation evidencing employment authorization in the United States. Application should refer to position 34-862. Send a letter of application, a detailed curriculum vita and a statement of research goals along with pertinent reprints and contact information for three references (address, e-mail, and phone). These materials should be addressed to: Chairperson, Patenge Search Committee; A314 East Fee Hall; Michigan State

University, East Lansing, MI 48824. E-mailed submissions in PDF format are welcomed and encouraged at patenge.search@hc.msu.edu.

SURGERY – AST/ASC PROFESSOR

Posting Date: Apr 23, 2009

Posting Number: CHM-1189

Tenure System, 12-month basis, 100% time.

Salary commensurate with qualifications.

DUTIES: The Department of Surgery at Michigan State University is seeking a full time Associate Professor in the tenure track with dual responsibilities to provide surgical breast care to women with benign and malignant breast diseases and to conduct translational research with efforts directed at the role of gut peptide hormone in breast cancer. This position requires a medical degree from a recognized accredited University and Board certification or Board eligibility to practice as a breast surgeon. Fellowship training in a recognized breast fellowship or fellowship training in surgical oncology is preferred. The purpose of the research component is to gain understanding of the molecular mechanisms resulting in development of the metastatic phenotype, prior to the development of large volume disease. Ultimately the research should facilitate the rational design of combination drug regimens for tumors that are most elusive to current therapeutics. Current funding is desirable. The position offers opportunities to practice at Sparrow Hospital, a 650+ bed tertiary care center and Level I trauma service and to develop a comprehensive breast program to meet the demands of the community and educational training programs. Research offers opportunities to interface with CTSA (bench to bed) researchers, department faculty, residents and students as well as multiple colleges; performs administrative duties as assigned by the Department Chair.

MSU is located in East Lansing and offers all the amenities of a Big 10 University in a live-able, friendly community. Candidates will be reviewed as the applications are received, and recruiting will continue until a suitable candidate is found. For more information about Surgery, please visit our website at <http://www.chmsurgery.msu.edu>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: This position requires an MD degree from an accredited University and experience as a basic scientist in molecular mechanisms resulting in the development of the metastatic phenotype or genomics of cancer-associated fibroblasts via laser capture microscopy.

APPLICATIONS: Due June 1, 2009. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Send resume to: Marc Basson, M.D.,PhD, MBA, Chairperson, Department of Surgery, 1200 E. Michigan Avenue, Suite 655, Lansing, MI 48912.

SURGERY – AST/ASC PROFESSOR

Posting Date: Apr 7, 2009

Posting Number: CHM-1181

Tenure System, 12-month basis, 100% time.

Salary and rank commensurate with experience.

DUTIES: The Department of Surgery at Michigan State University is seeking a full time Associate Professor in the tenure track with dual responsibilities to provide minimally invasive surgery with expertise in esophagogastric, pancreaticobiliary, colorectal and bariatric surgery and to contribute knowledge in understanding receptor induction and activation in acute pancreatic disease. This position requires a medical degree from a recognized accredited University and Board certification or Board eligibility to practice as a general surgeon. The position offers the opportunity to practice at Sparrow Hospital, a 650+ bed tertiary care center and Level I trauma service and to develop a comprehensive minimally invasive surgery program with a second surgeon to meet the demands of the community and educational training programs. Fellowship training in a recognized minimally invasive surgery fellowship is preferred. Research is directed at mechanisms of exacerbation of acute pancreatitis through cholinergic stimulation, enteral bile-pancreatic juice exclusion, and chemokine production. The dual role offers opportunities to interface with department faculty, residents and students and multiple university colleges. The position would facilitate consultation between Medicine and Surgery to enhance the ability to conduct research; provides administrative duties as assigned by the Department Chair. MSU is located in East Lansing and offers all the amenities of a Big 10 University in a live-able, friendly community. Candidates will be reviewed as the applications are received, and recruiting will continue until a suitable candidate is found. For more information about Surgery, please visit our website at <http://www.chmsurgery.msu.edu>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: This position requires an MD degree from an accredited University, and board certification or Board eligibility to practice as a general surgeon, with fellowship training as a minimally invasive surgeon. Research experience in understanding receptor induction and activation in acute esophagogastric, pancreaticobiliary, colorectal or bariatric surgery is highly desired.

APPLICATIONS: Due June 1, 2009. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Send resume to: Marc Basson, M.D.,PhD, MBA, Chairperson, Department of Surgery, 1200 E. Michigan Avenue, Suite 655, Lansing, MI 48912.

FISHERIES & WILDLIFE - PROFESSOR

Posting Date: Feb 27, 2009

Posting Number: ANR-1744

Tenure System, 12-month basis, 100% time.

DUTIES: This Endowed Chair will work with the academic community, wildlife managers, policy makers, Boone and Crockett Club members, and other stakeholders to develop knowledge, strategies, and methods to enhance wildlife productivity and value to society. Activities of the Boone and Crockett Chair must be relevant and responsive to the mission of Michigan State University as a World Grant Institution the Land Grant College related to research, outreach, and teaching, as well as the creed of the Boone and Crockett Club. Responsibilities include conducting research relevant to wildlife conservation world-wide (50%), working with natural resource agencies (e.g. Michigan Department of Natural Resources) and wildlife-related stakeholders (30%), and teaching at the undergraduate and graduate level related to leadership and management of wildlife resources (20%). For more information about Department of Fisheries and Wildlife, please visit our website at <http://fw.msu.edu>

QUALIFICATIONS: Ph.D. in discipline related to wildlife, ecology, policy or mgt. Qualifications other than degree: Qualified applicants will have an outstanding record of scholarship in wildlife ecology and policy. These individuals should have a record of increasing levels of experience and responsibilities with leading interdisciplinary groups in their understanding of wildlife conservation and its importance to society locally, nationally, and globally. Applicants also should have a record of writing successful research grants and publications that inform wildlife policy. Additionally, these individuals must demonstrate evidence of positive stakeholder interactions and successful mentoring of employees and students. Applicants should possess a record of scholarly achievements, which would result in the appointment of full professor with tenure in the Department of Fisheries and Wildlife at Michigan State University.

APPLICATIONS: Due March 16, 2009. Position to begin May, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applicants who are not U.S. citizens or permanent residents must provide documentation evidencing employment authorization in the United States. Interested applicants should send an electronic Curriculum Vitae, letter of interest, research statement, and the names of five individuals to be contacted for references to Dr. William W. Taylor, University Distinguished Professor, Department of Fisheries and Wildlife, Michigan State University (taylorw@msu.edu)

PLANNING, DESIGN & CONSTRUCTION, SCHOOL OF-CSS - AST PROFESSOR

Posting Date: Jan 29, 2009

Posting Number: SSC-0476

Tenure System, 9-month basis, 100% time.

Salary commensurate with degree and experience.

DUTIES: Maintain a robust externally funded research program, teach, and contribute to the overall outreach effort of the School and University. Primary teaching responsibilities will be in Urban and Regional Planning; 60% research, 30% teaching and 10% service. For more information about SPDC and Urban and Regional Planning, please visit our website at <http://www.spdc.msu.edu>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: Ph.D. required with at least one graduate degree in Urban and Regional Planning. Candidates with qualifications in closely related fields will also be considered. Applicants must demonstrate research and teaching potential. Professional planning experience is desirable. Applications are invited from individuals with training in urban and regional planning. Interests and specializations may include: environmental planning, sustainability, growth management, and/or land use law. Knowledge and active research interest in U.S. urbanization and urban policy are desired.

APPLICATIONS: Due March 31, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applicants who are not U.S. citizens or permanent residents must provide documentation evidencing employment authorization in the United States. Application should refer to position SSC-476. A letter of application, curriculum vitae, statement of research and teaching interests, and the names of three references to: Search Committee 38-0476 School of Planning, Design and Construction, 101 Human Ecology Building, E-mail: Witter@msu.edu Phone: (517) 432-6379 FAX: (517) 432-8108.

FAMILY MEDICINE – AST/ASC PROFESSOR

Posting Date: Apr 14, 2009

Posting Number: CHM-1165

Tenure System, 12-month basis, 100% time.

Salary and rank commensurate with experience.

DUTIES: The Department of Family Medicine in the College of Human Medicine (CHM) at Michigan State University (MSU) seeks a PhD/MD/DO trained in geriatrics/gerontology for a researcher role in the tenure system at the Advanced Assistant/Associate Professor rank. This position will contribute to a growing investment in aging (geriatrics and gerontology) that includes research, education and clinical opportunities. The Health Colleges of MSU have a network of campuses and affiliated hospitals that provide a substantial foundation for community-based/community engaged research throughout the State of Michigan. Research themes within the College and Department include: risk management, memory loss and dementia, polypharmacy, mental health, family care giving, safety and access to care. Scholarship on issues of aging exist in multiple disciplines at MSU including sociology, psychology, nursing, psychiatry, social work, communication arts, health economics, nutrition, neurology, music, rehabilitation and law. The department has grants funding both a geriatric education center and a geriatrics division including a statewide geriatric fellowship initiative. Other duties may include service and outreach depending on training and experience. For more information about The Department of Family Medicine, please visit our website at <http://www.chmfamilymedicine.msu.edu/>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: Strong candidates for this position will have research expertise with a track record of extramural funding and will be asked to expand extramural funding and should have the ability to lead an independent research program.

APPLICATIONS: Due April 30, 2009. Amended. Reposting. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Application should refer to position 22-1165. Please send a letter of interest, curriculum vitae and contact information for three references to: William Wadland, MD, MS, Professor and Chairperson, Department of Family Medicine, College of Human Medicine, B-106 Clinical Center. T: (517) 884-0463 F: (517) 355-7700, william.wadland@hc.msu.edu

LABOR INDUST REL - AST PROFESSOR

Posting Date: Dec 29, 2008

Posting Number: SSC-287

Tenure System, 12-month basis, 100% time.

DUTIES: The Labor Education Program at Michigan State University met the changing education and training needs of Michigan workers, their unions and workplaces for over 50 years. Currently, we provide both credit and non-credit courses, certificate programs, workshops and conferences to workers and union members; union leaders, activists and staff; joint labor-management committees; the wider workplace education, workforce and economic development communities; and in some cases to the Michigan community at large. We also are involved in a diverse set of research and writing activities touching on labor, employment relations and the world of work. The Labor Education Program has an outstanding opportunity for a flexible labor educator to join the faculty as a full-time Assistant Professor in the tenure-track system. The ideal candidate will have initiative, interest in newly emerging labor areas, as well as a passion for labor education. Responsibilities: Determine opportunities for new outreach programs in labor, relations. Develop and maintain working relationships with state AFL-CIO, local and national unions and other constituency groups, Develop curricular formats and materials for new and existing. educational programs (workshops, seminars, conferences, etc.). Teach new and existing labor education outreach programs in core areas such as leadership development, steward training and collective bargaining. Successfully promote and market labor education programs. Engage in both scholarly and applied research and publication. Considerable travel, including overnight stays, is required. Opportunities to teach graduate and undergraduate labor relations courses may be available.

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: Required Qualifications: Successful candidates will possess: A terminal degree in labor relations or related discipline, (PhD, EdD, JD), Proven ability to develop and promote labor education programs, Proven ability to effectively teach working adults, A track record of scholarly research and publication, Experience working with the labor movement. Desired Qualifications: Demonstrated interest in any of the following topic/expertise areas is desirable. Topics/ areas include, but are not limited to: Emerging Forms of Labor Organization and Labor Movement Strategy, Global/International Political and Economic Context, Immigration, Labor Movement Strategy

APPLICATIONS: Due January 30, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Dr. Dale Belman Professor School of Labor and Industrial Relations Michigan State University 408 S. Kedzie Hall East Lansing, MI 48824 517-353-3905 drdale@msu.edu

FAMILY MEDICINE – AST/ASC PROFESSOR

Posting Date: Dec 2, 2008

Posting Number: CHM-1163

Tenure System, 12-month basis, 100% time.

Salary and rank commensurate with experience.

DUTIES: This individual will be expected to contribute to the enhanced CHM/MSU presence in aging and family research as well as develop projects throughout our campuses in close affiliation with MAES and MSUE. Specific areas of emphasis might include, but are not limited to, memory loss and dementia, physical frailty and mobility, exercise and other behavioral interventions, family care giving, and/or community models for caring for seniors and their families. Specifically, the emphasis will be on promoting healthy aging for seniors and their families through early detection, resource management, adaptation and self-care. For more information about the Department of Family Medicine, please visit our website at <http://www.chmfamilymedicine.msu.edu/>

QUALIFICATIONS: Ph.D. in Health Services Research, Gerontology, Epidemiology. Qualifications other than degree: It is anticipated that the successful candidate will have a Ph.D. in Health Services Research, Gerontology, Epidemiology, or the social/behavioral sciences with an emphasis on health, aging and family, a strong record of scholarship and external funding, and experience in community-based research.

APPLICATIONS: Due March 31, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Please send a letter of interest, curriculum vitae and contact information for three references to: Jeffrey W. Dwyer, Ph.D. Associate Dean for Research & Community Engagement Professor, Department of Family Medicine College of Human Medicine Michigan State University A209 East Fee Hall East Lansing, MI 48824 T: (517) 432-4789 F: (517) 432-8021 jeffrey.dwyer@hc.msu.edu

ANIMAL SCIENCE - AST PROFESSOR

Posting Date: Nov 20, 2008

Posting Number: ANR-0834

Tenure System, 9-month basis, 100% time.

Salary commensurate with qualifications and experience.

DUTIES: The position will emphasize research. The successful candidate will be expected to develop and maintain an internationally recognized, extramurally funded research program with specific research area(s) that may include but is not limited to fundamental muscle biology, molecular and/or cellular aspects of muscle or fat development, pre- or post-harvest technologies that impact fresh meat quality and the conversion of muscle to meat, or relationships of management or other factors to growth and/or meat quality. Responsibilities will also include revising and teaching a required four-credit undergraduate lecture/laboratory animal products course. It is expected that the person will train graduate students and advise undergraduate students. The successful candidate will join a diverse and growing faculty team engaged in scholarly activity pertaining to muscle biochemistry, meat animal genetics, animal production, animal behavior and welfare, meat processing, meat product safety, and process optimization. The program is supported by modern USDA-inspected processing facilities, state-of-the-art research laboratories and a developing regional collaboration in meat sciences. For more information about the Meat Scientist/Muscle Biologist position, please visit our website at <http://www.ans.msu.edu>

QUALIFICATIONS: Ph.D. in Animal Science, Food Science, Meat Science or related. Qualifications other than degree: Preference will be given to candidates with post-doctoral experience, food industry experience, and clear potential for, or demonstrated commitment to, excellence in research and teaching. Candidates should have a working knowledge of the meat industry and experience in carcass evaluation and meat quality assessment. Evidence of collaboration and ability to work as part of a multidisciplinary research team are also requirements of the position.

APPLICATIONS: Due February 1, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Interested candidates should submit a cover letter, a detailed statement of research interests, evidence of and plans for procurement of extramural funding, a statement of teaching experience and philosophy, a detailed curriculum vitae, and arrange for three letters of reference to be sent to: Dr. Catherine W. Ernst, Search Committee Chair, c/o Kathy Tatro, Department of Animal Science, 1290 Anthony Hall, East Lansing, MI 48824. Telephone: (517) 355-8417. Applicants are strongly encouraged to submit applications and letters of reference by e-mail to tatro@msu.edu.

BIOCEMMOLC BIO NS - PROFESSOR

Posting Date: Nov 7, 2008

Posting Number: NSC-1427

Tenure System, 9-month basis, 100% time.

DUTIES: Michigan State University invites applications and seeks nominations for a John A. Hannah Professorship in Gene Regulation. The position is intended to complement a strong gene regulatory research presence in areas of structural, biochemical, genetic, and bioinformatic studies in animal, plant and microbial systems. The individual selected will bring innovative and multidisciplinary approaches to bear on central questions in gene regulation, including but not restricted to analysis of regulatory networks, structural analysis of higher order complexes, systems biology, microRNAs and dynamics of molecular complexes in live cells. It is anticipated that the candidate will contribute to the highly collaborative research atmosphere on campus and take a leadership role in enhancing training and research in the area of gene regulation. The recent MSU Midwest Symposium on Transcriptional Regulation and Systems Biology showcases work in this area. MSU is making significant investments in gene expression in development and disease (bmb.msu.edu/GEDD/index.html), including four additional faculty positions that the new Hannah Professor will take a lead in recruiting. This tenured research and teaching position comes with significant operating funds provided annually for program support. The primary appointment will be based in the Department of Biochemistry and Molecular Biology, with possible joint appointments in related departments. The John A. Hannah Professorships were established in 1969, and are awarded to exceptional scholars to honor Hannah's 25 years as president of the University. Applications will be received until a suitable candidate is identified. For more information about our department, please visit our website at <http://www.bmb.msu.edu>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: The position is intended to complement a strong gene regulatory research presence in areas of structural, biochemical, genetic, and bioinformatic studies in animal, plant and microbial systems. The individual selected will bring innovative and multidisciplinary approaches to bear on central questions in gene regulation, including but not restricted to analysis of regulatory networks, structural analysis of higher order complexes, systems biology, microRNAs and dynamics of molecular complexes in live cells.

APPLICATIONS: Due January 9, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. For further information, contact Dr. David Arnosti (arnosti@msu.edu). Applications should include cover letter, C.V., and statement of research interests and future directions. Application materials should be sent electronically to hannahchair@cns.msu.edu

CNS ED PSYSPC ED – AST/ASC PROFESSOR

Posting Date: Oct 30, 2008

Posting Number: CED-55

Tenure System, 9-month basis, 100% time.

DUTIES: (1) Engagement in an active and productive program of research, (2) graduate teaching in both our CORE-accredited masters rehabilitation counseling and doctoral rehabilitation counselor education programs, (3) supervision of doctoral dissertations, (4) clinical supervision, and (5) participation in democratic governance and operation of our programs. For more information about this position, please visit our website at <http://ed-web3.educ.msu.edu/ord/>

QUALIFICATIONS: Ph.D. in Rehabilitation Counseling. Qualifications other than degree: (1) Evidence of scholarly productivity, (2) earned doctorate in Rehabilitation Counselor Education, Rehabilitation Psychology or a closely related discipline, (3) eligibility for CRC certification and licensure as a professional counselor (LPC) in Michigan, and (4) prior clinical experience as a rehabilitation counselor/rehabilitation psychologist working with individuals with disabilities. Experience in securing extramural research funding is highly desirable for candidates at the assistant professor rank and required for those at the associate professor rank.

APPLICATIONS: Due January 15, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applicants who are not U.S. citizens or permanent residents must provide documentation evidencing employment authorization in the United States. Application should refer to position CED-55. Interested candidates should send a letter of application, curriculum vita, samples of publications, and statement of teaching philosophy, and have three letters of reference sent to: Dr. Michael Leahy, Chair, Rehabilitation Counselor Education Search, 463 Erickson Hall, College of Education, Michigan State University, East Lansing, MI 48824-1034

AGRIC ECONOMICS - AST PROFESSOR

Posting Date: Oct 30, 2008

Posting Number: ANR-1735

Tenure System, 9-month basis, 100% time.

Salary commensurate with qualifications.

DUTIES: We seek candidates who will develop an outstanding research and teaching program in food retailing and consumer behavior. The research focus will depend on the expertise and interests of the successful candidate but might include areas such as consumer retail demand behavior, food retail strategies and management. The candidate may also have expertise in various aspects of the food supply chain, including the economics, efficiency, and/or safety of the food supply chain. Responsibilities include teaching undergraduate and graduate courses in food and consumer economics and management; conducting research in the candidate's area of expertise; disseminating research in respected refereed journals; attracting external funding for research; directing graduate student research; participating in course and curriculum development; and being actively involved with industry and relevant professional associations. For more information about the position, please visit our website at <http://aec.msu.edu/facposition.htm>

QUALIFICATIONS: Ph.D. in economics, ag, resource or applied economics, marketing. Qualifications other than degree: Evidence of high probability of success for publishing in respected refereed journals, superior communication and interpersonal skills necessary to be an effective instructor, and relevant professional business/industry experience are all highly desirable.

APPLICATIONS: Due January 30, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Application material should include letter of application detailing qualifications and interests in food retailing and consumer behavior, CV, transcripts and three letters of reference. Send material electronically to Dr. Steven D. Hanson, Chairperson, Dept. of Agricultural, Food, and Resource Economics. E-mail: aec@msu.edu; phone: 517-355-4567.

FD SC HUM NUTR ANR - AST PROFESSOR

Posting Date: Oct 30, 2008

Posting Number: ANR-1733

Tenure System, 9-month basis, 100% time.

Salary commensurate with degree and experience.

DUTIES: Position: Tenure-track faculty position in basic organic/biochemistry, with food and nutrition applications. Location: Department of Food Science & Human Nutrition, GM Trout Food Science & Human Nutrition Building, Michigan State University, East Lansing, MI 48824-1224. The Department is seeking an individual who takes basic organic or bio-chemical approaches, including generating novel compounds, to solving applied problems in the Food Science and Human Nutrition research arenas. Examples of the research areas may include, but are not limited to: physicochemical properties of carbohydrates; lipid chemistry; characterization of metabolic pathways (microbial, plant, animal) using genomic, proteomic, or other molecular approaches; molecular actions of food components at the cellular level. The successful candidate will be expected to develop an internationally recognized externally funded (e.g., NIH, NSF, USDA, etc.) independent research program. Interaction with the multidisciplinary faculty in the Department and with faculty working in similar areas in other departments is encouraged. A strong commitment to teaching is required, including the mentoring of master and doctoral students. Service contributions to the Department, College of Agriculture and Natural Resources, the University, and public are expected. A start-up package for research is available. For more information about the Food and Health Chemist position, please visit our website at <http://fshn.msu.edu/FoodHealthChemistPositionDescription.pdf>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: Ph.D. or equivalent and post-doctoral training in basic organic chemistry, or biochemistry, with experience working in the area of food science and/or nutrition. Effective classroom teaching, mentoring of graduate students, and strong communication skills are essential for this position.

APPLICATIONS: Due February 28, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. For further information, contact Dr. Perry Ng at ngp@msu.edu. Applications will be accepted until a suitable candidate is identified. Send a letter of interest, statements of two or three research plans and of teaching interests and experiences, current curriculum vitae including a list of research support and publications, two or three selected publications and at least three reference letters. All documents should be in individual .pdf files and sent to: Ms. Dianne Dreffs at ddreffs@msu.edu (Department of Food Science and Human Nutrition, Michigan State University).

BIOCEMMOLC BIO NS - AST PROFESSOR

Posting Date: Oct 27, 2008

Posting Number: NSC-1426

Tenure System, 9-month basis, 100% time.

DUTIES: The Department of Biochemistry and Molecular Biology at Michigan State University seeks an outstanding biochemist to facilitate ongoing research in the area of metabolic diseases with emphasis on obesity and diabetes. The position offered is at the Assistant Professor level but, in exceptional cases, the rank of Associate Professor will be considered. The research program should employ biochemical or molecular approaches for the study of the regulation of metabolism and attendant changes that lead to obesity, diabetes, etc. Studies of adipogenesis, adipokines, hormonal regulation of metabolism, or inflammatory responses as they pertain to obesity or diabetes are of interest. State of the art facilities that are professionally run are available. Generous start-up packages are offered. For more information about this position, please visit our website at <http://www.bmb.msu.edu>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: A PhD or PhD/MD in biochemistry or molecular biology or aligned areas is desired. The successful candidate is expected to develop a productive, independent research program that is externally funded as well as contribute to the teaching of undergraduates, graduates, and medical students. The candidate is also expected to interact with a diverse core of faculty at MSU involved in the study of metabolic diseases which includes translational studies.

APPLICATIONS: Due January 9, 2009. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Application materials will be accepted until January 9, 2009 or until a suitable candidate is found. The Department is highly committed to affirmative action and encourages women, persons of color, veterans, or persons with disabilities to apply. Application materials should include: a cover letter indicating degree of interest, description of research interests including future directions, a CV and three or more reference letters. All application materials should be sent electronically to metabolicbiochem@cns.msu.edu by January 9, 2009. Questions regarding this position may be directed to Dr. Pam Fraker (fraker@msu.edu).

WRITNG RHET CULT – AST/ASC PROFESSOR

Posting Date: Oct 21, 2008

Posting Number: CAL-993

Tenure System, 9-month basis, 100% time.

Salary and rank commensurate with experience.

DUTIES: Teach in undergraduate Professional Writing and graduate Rhetoric and Writing programs as well as in required undergraduate Tier I writing program; contribute to international and global professional writing initiatives; maintain active and productive research agenda, possibly in conjunction with Writing in Digital Environments (WIDE) research center; take active and visible role in national and international professional organizations; contribute to College of Arts and Letters digital technology initiatives.

QUALIFICATIONS: Ph.D. in Rhetoric, Composition Studies, Technical Writing, English. Qualifications other than degree: Advanced Assistant Professor or Associate Professor in Rhetoric & Composition with an emphasis on professional writing and technical communication, with additional interests in internationalization, global studies, or digital rhetoric. Active and productive research agenda.

APPLICATIONS: Due October 28, 2009. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Send letter highlighting interest and qualifications pertinent to the position, a vita, and names and contact information of at least three references. References will be contacted only after initial screening and after receiving the candidate's permission. Send materials to: Chair, Professional Writing Search Committee, Department of Writing, Rhetoric and American Cultures, 235 Bessey Hall.

ART & ART HISTORY - AST PROFESSOR

Posting Date: Oct 21, 2008

Posting Number: CAL-992

Tenure System, 9-month basis, 100% time.

Salary commensurate with qualifications.

DUTIES: Teach all levels of ceramics in undergraduate and graduate program in three-dimensional area, which includes ceramics and sculpture, and in studio art foundation program. Research in area of specialization. The person hired will have shared faculty responsibility for the ceramics facility, and will work closely with the full-time 3-D area technician. Contributions to the general education mission of the college.

QUALIFICATIONS: Doctorate or other terminal degree. Other degree requirements: MFA. Qualifications other than degree: Ability to teach all levels of ceramics in undergraduate and graduate program in three-dimensional area, which includes ceramics and sculpture, and in studio art foundation program. Working knowledge of all ceramic processes, clay forming and fabrication, wheel throwing, glaze chemistry, kiln building and firing. Knowledge of historical and contemporary visual arts and ability to address interface between new and traditional technologies. Research in area of specialization. Exhibition record and previous teaching experience highly desirable. The person hired will have shared faculty responsibility for the ceramics facility, and will work closely with the full-time 3-D area technician. Contributions to the general education mission of the college. The Department of Art & Art History is dedicated to the creation and historical study of the visual arts through undergraduate and graduate degree programs. The department is part of the College of Arts & Letters and offers study in Studio Art, Art Education, Apparel & Textile Design, and History of Art & Visual Culture. In 2011, Michigan State University will be home to the new Eli and Edythe Broad Art Museum, designed by world renowned architect Zaha Hadid. A premier venue for modern and contemporary art, the museum will serve as a laboratory for research by faculty and students in numerous fields and as a nexus for community engagement with the visual arts. Other important campus resources include The MSU Museum and Fine Arts Library. For further information, visit <http://www.art.msu.edu>.

APPLICATIONS: Due January 5, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Include letter of application, artist's statement, statement of teaching philosophy, CV, names of three references, 20 images of recent work, 20 images of student work (single CD with jpeg images preferred, printed thumbnails desirable; DVD, or 35mm slides also accepted). Send self-addressed stamped envelope and all materials to: Ceramics Search Committee c/o Thomas Berding, Chair, Department of Art & Art History, 113 Kresge Art Center, East Lansing, MI 48824-1119.

ART AND ART HISTORY - AST PROFESSOR

Posting Date: Oct 21, 2008

Posting Number: CAL-989 and CAL-990

Tenure System, 9-month basis, 100% time.

Salary commensurate with qualifications.

DUTIES: Teach undergraduate courses in newly envisioned studio based BFA and BA apparel and textile program in the Department of Art & Art History. Engage in Service and Outreach. Research /creative work in area of specialization. Professional record and previous teaching experience highly desirable. Contributions to the general education mission of the college. The Department of Art & Art History is dedicated to the creation and historical study of the visual arts through undergraduate and graduate degree programs. The department is part of the College of Arts & Letters and offers study in Studio Art, Art Education, Apparel & Textile Design, and History of Art & Visual Culture. In 2011, Michigan State University will be home to the new Eli and Edythe Broad Art Museum, designed by world renowned architect Zaha Hadid. A premier venue for modern and contemporary art, the museum will serve as a laboratory for research by faculty and students in numerous fields and as a nexus for community engagement with the visual arts. Other important campus resources include The MSU Museum and Fine Arts Library. For further information, visit <http://www.art.msu.edu>.

QUALIFICATIONS: Doctorate or other terminal degree. Other degree requirements: MFA or terminal degree in apparel/textile design or equivalent. Qualifications other than degree: Ability to teach undergraduate courses in newly envisioned studio based BFA and BA apparel and textile program in the Department of Art & Art History. Working knowledge of apparel and textile design processes and extensive experience in at least one of the following areas: fashion illustration, garment structuring, textile design, three-dimensional apparel design, computer-aided design, sustainable and specialized apparel design. Knowledge of historical and contemporary issues in dress and textiles. Research /creative work in area of specialization. Professional record and previous teaching experience highly desirable. Contributions to the general education mission of the college.

APPLICATIONS: Due January 5, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Send self-addressed stamped envelope and all materials to: Apparel and Textile Design Search Committee, c/o Thomas Berding, Chair Department of Art & Art History 113 Kresge Art Center, East Lansing, MI 48824-1119.

COMPUTER SCIENCE AND ENGINEERING - AST PROFESSOR

Posting Date: Oct 21, 2008

Posting Number: EGR-330

Tenure System, 9-month basis, 100% time.

DUTIES: The Department of Computer Science and Engineering (CSE) at Michigan State University invites applications for a tenure-stream faculty position. Candidates in the area of Computer Vision are especially encouraged, but exceptional candidates in other areas will also be considered. The CSE Department conducts leading-edge research in many areas, with particular strength in software engineering and formal methods; computer systems and networking; and pattern recognition and machine intelligence. Multidisciplinary research across a broad range of disciplines is strongly encouraged and is being actively pursued by the faculty. The Department presently has 27 faculty members and administers BS, MS and PhD programs. MSU enjoys a large, park-like campus with outlying research facilities and natural areas. The greater Lansing area has approximately 450,000 residents. The local communities have excellent school systems and place a high value on education. The University is proactive in exploring opportunities for the employment of spouses, both inside and outside the University. For more information about Computer Science & Engineering, please visit our website at <http://www.cse.msu.edu>

QUALIFICATIONS: Doctorate or other terminal degree. Qualifications other than degree: Candidates in the area of Computer Vision are especially encouraged, but exceptional candidates in other areas will also be considered.

APPLICATIONS: Due January 9, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applicants who are not U.S. citizens or permanent residents must provide documentation evidencing employment authorization in the United States. Candidates should submit a cover letter, curriculum vitae, the names of three references, and statements of research and teaching interests to: www.cse.msu.edu/facultysearch. Questions should be addressed to search@cse.msu.edu. Faculty Search Committee, Department of Computer Science and Engineering, 3115 Engineering Building, East Lansing, Michigan 48824-1226.

CNS ED PSYSPC ED - AST PROFESSOR

Posting Date: Oct 21, 2008

Posting Number: CED-373

Tenure System, 9-month basis, 100% time.

DUTIES: Responsibilities include: (1) contribution to the knowledge base and research in quantitative methods in education; (2) teaching graduate level courses in educational statistics, research design, and related areas; (3) advising graduate students; (4) providing statistical expertise on grants; (5) directing doctoral dissertations and (6) contributing to the mission and promotion of the program. Affiliations with research and policy centers, such as the Educational Policy Center in the College are also possible.

QUALIFICATIONS: Ph.D. in Educational Measurement and Statistics or related field. Qualifications other than degree: Evidence of scholarly activity and publications.

APPLICATIONS: Due January 15, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Application should refer to position 14-373. Interested applicants should send a letter of application, vita, copies of written work or publications, and the names and addresses of three references to: Dr. Sharif Shakrani, Co-Director and Professor, Education Policy Center, 201D Erickson Hall, Michigan State University, East Lansing, MI 48824.

SOCIAL WORK - AST PROFESSOR

Posting Date: Oct 9, 2008

Posting Number: SSC-58

Tenure System, 9-month basis, 100% time.

DUTIES: Participate in a significant initiative as a member of a faculty group from Social Work that has a number of federal and other externally funded projects in relation to child welfare, child abuse, and neglect. This group will seek to identify additional colleagues in the health and social sciences, as well as community-based partners, and work to lead interdisciplinary teams in securing funding, developing research, and participate in teaching and training in HBSE, policy, research, and/or social work practice. This position will spend 40% research, 48% teaching, and 12% outreach.

QUALIFICATIONS: Ph.D. in Social Work or a related social science discipline. Other degree requirements: MSW. Qualifications other than degree: Applicants should have substantive interests and experience in child abuse and neglect, as well as curricular interests in HBSE, Policy, Research, and/or Social Work Practice. Applicants with at least two years of post-MSW practice experience in child welfare are highly preferred.

APPLICATIONS: Due February 20, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Candidates should submit a letter that outlines areas of practice experience, research, and teaching interests; a vita; and a sample of written scholarly work. Three letters from professional references must also be provided to Dr. Rena Harold, School of Social Work, 254 Baker Hall, E. Lansing, MI 48824.

EPIDEMIOLOGY – ASC/FULL PROFESSOR

Posting Date: Sep 23, 2008

Posting Number: CHM-1131

Tenure System, 12-month basis, 100% time.

Salary, rank, and tenure status will be commensurate with qualifications and experience.

DUTIES: The Department of Epidemiology at MSU's College of Human Medicine seeks candidates for its Cancer Epidemiology (Population Science) faculty. The successful candidate will be a cancer epidemiologist who is a scientist-teacher-leader committed to population sciences and patient-oriented clinical epidemiology research that creates opportunities for translational laboratory research collaborations. Success in this post will require development of a multi-investigator cancer epidemiology research program. To this end, the post involves leadership in integrating the department's current and future single-PI research projects into more programmatic multi-PI initiatives leading to important new discoveries and approaches to cancer prevention and control in community and clinical populations. This position requires cultivation of research opportunities and collaborations within an extensive Michigan clinical practice and research network, with a primary focus on the Great Lakes Cancer Institute's (GLCI) Clinical Cancer Research Center, which is a joint venture of MSU and McLaren Health Care (<http://www.glci.com>). Research opportunities and potential collaborations with established, statewide primary care practice research networks exist in complement with and in addition to those involving the contexts of specialty care for patients with cancer. Research opportunities in connection with the new Western Michigan campus and the other community campuses of the medical school also exist, including collaborative research with the Van Andel Institute (VAI) (www.vai.org), and clinical service systems such as Spectrum Health and Trinity Health. Research collaborations linking all campuses around the state with GLCI, VAI, and other partners will be encouraged. The context includes currently active collaborations and opportunities for new collaborations with researchers at the Karmanos Cancer Institute and the Detroit SEER program. Consistent with MSU's commitment to an increasing global impact, the Department of Epidemiology is also a partner in the INCLEN initiative (www.inclen.org); hosts international research initiatives, and has active investigations on the health of trans-national migrants. International research on cancer epidemiology, prevention, and control will be encouraged and nurtured, in complement with more Michigan- and US-oriented aspects of the research program. The eventual Cancer Epidemiology Population Science program of research should be broadly based, and can encompass: randomized clinical and/or prevention trials and other program evaluations; observational etiologic research; research on behavior change interventions or innovations in patterns of care, intervention impact on survivorship and quality of life; and research with tumor registry data and other sources of epidemiological evidence. Additional responsibilities include cancer epidemiology-related classroom instruction, research apprentice/fellow training and mentoring, general participation in graduate and postdoctoral education and outreach, as well as development of new NCI and other NIH-funded research

training programs. The department website and contact information can be found at www.epi.msu.edu

QUALIFICATIONS: M.D. or Ph.D. in Epidemiology or Biostatistics/Statistics (or suitable alternative PhD) with strong research credentials in cancer epidemiology, plus experiences and background appropriate to the senior level responsibilities described above. National and international reputation in cancer research, based upon: (a) a sustained track record of successful NIH funding; (b) a sustained line of peer reviewed contributions pertinent to cancer epidemiology, prevention, and control; (c) clear potential or demonstrated success in building productive teams for transdisciplinary and translational research that accommodates intervention-oriented bench-bedside-community collaborations. Vision, enthusiastic commitment, and leadership qualities required, with intended Michigan-oriented, US-oriented and global impact.

APPLICATIONS: Due April 30, 2009. Reposting. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative action, equal opportunity employer. MSU is strongly committed to achieving excellence through cultural diversity. The university actively encourages applications and nominations of women, persons of color, veterans and persons with disabilities. Applicants who are not U.S. citizens or permanent residents must provide documentation of employment authorization in the United States. Send a letter of interest, the curriculum vitae, and the names and complete contact information of three professional references to James C. (Jim) Anthony, Chair of the Search Committee) Department of Epidemiology, MSU, B601 West Fee Hall.

NURSING – AST/ASC PROFESSOR

Posting Date: Jun 25, 2009

Posting Number: NUR-204

Tenure System, 9-month basis, 100% time.

DUTIES: Tenure system faculty members participate in the full life of the College and University and are active in community and professional activities. The faculty member is expected to engage in teaching, research and service in a collaborative work environment and achieve the integrated outcomes of the academic role. These outcome expectations are outlined by rank in the document, "Michigan State University College of Nursing Indicators for Performance, Evaluation and Promotion." For more information about the College of Nursing, please visit our website at <http://www.nursing.msu.edu>.

QUALIFICATIONS: Ph.D. in Nursing or a related field. Other degree requirements: Master's degree in Nursing. qualifications other than degree: Registration to practice nursing in Michigan with an unrestricted license or eligible to apply; a developed or developing research program with evidence of extra mural funding or potential for funding; record of peer reviewed publications and presentations; experience in higher education teaching is preferred; excellent communication skills and ability to participate in collaborative and team relationships in teaching and research.

APPLICATIONS: Due October 1, 2009. Reposted. Review of applications will begin immediately and continue until the position is filled. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Send letters of interest, curriculum vitae, and three references to: Mary H. Mundt, PhD, RN, Dean and Professor, College of Nursing, A219 Life Sciences, Michigan State University, East Lansing, MI 48824-1317. Email: mary.mundt@hc.msu.edu.

NURSING – ASC/FULL PROFESSOR; DIRECTOR

Posting Date: Jun 25, 2009

Posting Number: NUR-205

Tenure System, 12-month basis, 100% time.

DUTIES: The Director will provide administrative, educational and curricular leadership for the PhD Program in the College of Nursing; assure appropriate student, faculty and program evaluation; teach in area of expertise; collaborate with the Associate Dean for Research to coordinate external funding, publications and scholarly activities of doctoral students in an environment of research integrity; mentor faculty in doctoral teaching and guidance of students; and represent the college in university and community relations. For more information about the College of Nursing, please visit our website at <http://www.nursing.msu.edu>

QUALIFICATIONS: Ph.D. in Nursing or related field; Ph.D. in Nursing preferred. Other degree requirements: Master's in Nursing. qualifications other than degree: Eligible to obtain RN license in Michigan; established research program and successful record of funding and scholarship; record consistent with appointment as tenured Associate or full Professor; and record of teaching, mentorship and dissertation guidance in doctoral education.

APPLICATIONS: Due October 1, 2009. Reposted. Review of applications will begin immediately and continue until the position is filled. Amended. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Send letters of interest, curriculum vitae, and three references to: Mary H. Mundt, PhD, RN, Dean and Professor, College of Nursing, A219 Life Sciences, Michigan State University, East Lansing, MI 48824-1317. Email: mary.mundt@hc.msu.edu.

CIVIL ENVIR ENG - AST PROFESSOR

Posting Date: Sep 10, 2008

Posting Number: EGR-329

Tenure System, 9-month basis, 100% time.

DUTIES: The successful candidate will be expected to develop a strong, externally-funded research program and to teach both at the graduate and undergraduate levels. For more information about the Department of Civil & Environmental Engineering, please visit our website at <http://www.egr.msu.edu/cee>

QUALIFICATIONS: Ph.D. in engineering. Other degree requirements: or discipline closely related to environmental hydrology. Qualifications other than degree: We are seeking applicants with a strong record of scholarship in computational hydrology or environmental modeling to address both water quantity and quality challenges.

APPLICATIONS: Due January 15, 2009. Position to begin August, 2009. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Applicants who are not U.S. citizens or permanent residents must provide documentation evidencing employment authorization in the United States. Interested applicants should submit detailed curriculum vitae, a research plan and statement of teaching philosophy, reprints of 3 representative publications, and the names of three references to: Search Committee Chair, A133 ERC, Department of Civil and Environmental Engineering, Michigan State University. Electronic submissions are encouraged and may be sent to lishug@egr.msu.edu.

CROP SOIL SCI - AST PROFESSOR

Posting Date: Mar 5, 2009

Posting Number: ANR-1719

Tenure System, 12-month basis, 100% time.

DUTIES: This position is 60% Extension, 25% Research and 15% Teaching. The position will provide leadership and coordination of research and extension efforts related to corn (grain and silage), soybean and wheat crop management systems in Michigan. An integrative approach to both extension and research is expected, working with multidisciplinary teams of research scientists, extension specialists, and stakeholders. The research should address key aspects of economically and environmentally sound integrated crop management systems. Candidates should be able to integrate new and novel technologies into research programs. Primary emphasis will be on applied research and information transfer to clientele groups. The incumbent will be expected to develop a strong externally funded nationally recognized research program, publish in refereed journals, and train graduate students. The successful candidate will provide leadership and direction for on-farm demonstration and research efforts of the Extension Field Crops Area of Expertise (AoE) Team, as well as developing innovative educational programs for field crop producers. The successful candidate also will provide oversight for the corn hybrid testing program. The incumbent is expected to teach an undergraduate course in Advanced Crop Production (CSS 212) and contribute cropping systems information in other courses.

QUALIFICATIONS: Ph.D. in agronomy or a closely related field is required. Qualifications other than degree: Experience in conducting applied research, extension, and teaching is desirable. Candidates should possess excellent communication skills, a history of successful grant applications, and a demonstrated ability to work effectively with other researchers and clientele groups.

APPLICATIONS: Due April 17, 2009. Reposting. Late submissions will be considered if a suitable candidate pool is not identified by the deadline. MSU is an affirmative-action, equal-opportunity employer. MSU is committed to achieving excellence through cultural diversity. The university actively encourages applications and/or nominations of women, persons of color, veterans and persons with disabilities. Inquires about the position should be addressed to: Dr. Russ Freed, Search Committee Chair, freed@msu.edu, ph. 517-355-0271x1187. Submit applications electronically to Ms. Sandie Litchfield, litchfi9@msu.edu, Department of Crop and Soil Sciences, Michigan State University. Include letter of application including a summary of relevant experiences and accomplishments, a vision statement regarding goals in extension, research and teaching for this position, a detailed vitae including a list of publications, grant proposals and a summary of extension and teaching activities, official academic transcripts, applicants should forward a list and arrange for three letters of reference to be sent.
